Re: Other Matters.

At 7:18 pm, Chairman Rogers entertained discussion of other matters

Member Dyson said that she had spoken with Rob Gregory who is still ready to pursue a large-scale window replacement project. He said he is looking at 16 windows, but would prefer a lower cost alternative to wood windows.

Member Dyson recommends that the Board review whether other materials may be an acceptable substitute.

Chairman Rogers stated that the Board has accepted wood and aluminum-clad wood windows for use in the Historic District. He does not think it has been presented with nor approved a composite window, and has not accepted a vinyl window.

Member Dyson asked if the Board would undertake an application that proposed composite windows? Chairman Rogers replied that the Board looks to the applicant to specify what materials they propose to use. The Board would review the profile from a full-size sample window and would also give close attention to the treatment of divided lights if specified. Mr. Gregory's application remains open to be modified if he desires to do so.

This matter was concluded and on motion of Chairman Rogers, seconded by Member Birchenough, the meeting was unanimously adjourned at 7:24 pm.

Respectfully submitted,

Dennis Dundon, Clerk to the Boards
