

Village of Skaneateles Police Department		General Order: 335
Subject: Use of Force		
Effective Date:05/18/22	Review Date:05/18/22	Authority: Chief Scott Heggelke
Applicable Standards: 14.1, 20.1, 20.6, 21.1, 40.2, 43.6 & 43.8		
Rescinds: All Previously Issued Directives		

I. Purpose:

Law Enforcement officers around the country and here in New York State are authorized to use reasonable and legitimate force in specific circumstances. Federal constitutional and state statutory standards dictate when and how much force can be used. This policy is founded in these standards but is not intended to be an exhaustive recitation of state and/or federal legal framework governing use of force.

II. Policy

- A. The federal and state standards by which use of force is measured are both founded in the basic premise of objective reasonableness ¹. The amount of force that is used by the officers shall be the amount of force that is objectively reasonable under the circumstances for the officer involved to effect an arrest, prevent an escape, or in defense of themselves or others. The standard of objective reasonableness, established by the United States Supreme Court in *Graham v. Connor* ², is used in this policy and is intended to provide officers with guidelines for the use of force, including deadly physical force.

As the Supreme Court has recognized, this reasonableness inquiry embodies “allowance for the fact that Police Officers are often forced to make split-second judgements – in circumstances that are tense, uncertain, and rapidly evolving – about the amount of force that is necessary in a particular situation.”²

This policy is written in recognition of the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires a careful balancing of all interests.

- B. The ONLY authorized non- lethal weapon of this department is Oleoresin Capsicum spray.
 - 1. General Order 336 governs the use of Oleoresin Capsicum spray.
- C. The only authorized impact weapon is the traditional baton or the collapsible baton (ASP).
 - 1. Only those members who have received certified training in the use of these two (2) types of police batons are authorized to carry same on-duty.
 - 2. Batons or impact weapons will be only utilized when verbal commands and/or non-lethal chemical agents have proven ineffective or their use is impractical.
- D. No member shall carry or possess on-duty any:
 - 1. Black jacks;

2. Weighted gloves;
3. Brass knuckles, or
4. Conducted Energy Weapons (CEW).

III. Definitions

- A. **Objectively Reasonable**- An objective standard used to judge an officer's actions. Under this standard, a particular application of force must be judged through the perspective of a reasonable officer facing the same set of circumstances, without the benefit of 20/20 hindsight, and be based on the totality of the facts that are known to that officer at the time that the force was used.³
- B. **Deadly Physical Force**- Physical force which, under the circumstances in which it is used, is readily capable of causing death or other serious physical injury.⁴
- C. **Physical Injury**- Impairment of physical condition or substantial pain.⁵
- D. **Serious Physical Injury**- Physical injury which creates a substantial risk of death, or which causes death or serious and protracted disfigurement, protracted impairment of health or protracted loss or impairment of the function of any bodily organ.⁶

IV. Use of Force

- A. In general terms, force is authorized to be used when reasonably believed to be necessary to effect a lawful arrest or detention, prevent the escape of a person from custody, or in defense of one's self or another.⁷
- B. Under the 4th Amendment, a police officer may use only such force as is "objectively reasonable" under the circumstances. The reasonableness of a particular use of force must be judged from the perspective of a reasonable officer on the scene.⁸

V. Determining the Objective Reasonableness of Force

- A. When used, force should be only that which is objectively reasonable given the circumstances perceived by the officer at the time of the event.
- B. Factors that may be used in determining the reasonableness of force include, but are not limited to:
 1. The severity of the crime or circumstance⁹;
 2. The level and immediacy of threat or resistance posed by the suspect¹⁰;
 3. The potential for injury to citizens, officers, and suspects¹¹;
 4. The risk or attempt of the suspect to escape¹²;
 5. The knowledge, training, and experience of the officer¹³;
 6. Officer/Subject considerations such as age, size, relative strength, skill level, injury or exhaustion, and the number of officers or subjects¹⁴;
 7. Other environmental conditions or exigent circumstances¹⁵.

VI. Duty to Intervene

- A. Any officer present and observing another officer using force that he/she reasonably believes to be clearly beyond that which is objectively reasonable under the circumstances shall intercede to prevent the use of unreasonable force, if and when the officer has a realistic opportunity to prevent harm.

- B. An officer who observes another officer use of force that exceeds the degree of force as described in subdivision A of this section should promptly report these observations to a supervisor.
- C. A supervisor who is advised of an incident where the use of force may have been excessive shall immediately advise the Chief of Police.

VII. Use of Deadly Physical Force

- A. Deadly physical force may be used by an officer to protect themselves or another person from what the officer reasonably believes is an imminent threat of serious physical injury or death.¹⁶
- B. Deadly physical force may be used to stop a fleeing suspect where:
 - 1. The officer has probable cause to believe the suspect has committed a felony involving the infliction of threat of serious physical injury or death; and
 - 2. The officer reasonably believes that the suspect poses an imminent threat of serious physical injury to the officer or to others.
 - 3. Where feasible, some warning should be given prior to the use of deadly physical force.¹⁷
- C. Chokeholds and Obstruction of Breathing or Blood Circulation
 - 1. Any application of pressure to the throat, windpipe, neck, or blocking the mouth or nose of a person in a manner that may hinder breathing, reduce intake of air or obstruct blood circulation, is prohibited unless deadly physical force is authorized.¹⁸

VIII. Prohibited Uses of Force

- A. Force shall not be used by an officer for the following reasons:
 - 1. To extract an item from the anus or vagina of a subject without a warrant, except where exigent circumstances are present;
 - 2. To coerce a confession from a subject in custody;
 - 3. To obtain blood, saliva, urine, or other bodily fluid or cells, from an individual for the purposes of scientific testing in lieu of a court order where required;
 - 4. Against persons who are handcuffed or restrained unless it is used to prevent injury, escape, or otherwise overcome active or passive resistance posed by the subject.

IX. Reporting & Reviewing the Use of Force

- A. A police or peace officer or other law enforcement entity who has custody of a person must provide attention to the medical and mental health needs of a person in their custody and obtain assistance and treatment of such needs, which are reasonable and provided in good faith.¹⁹
 - 1. This includes appropriate and timely medical attention being provided to a party injured as a result of a use of force incident.
 - 2. The immediate mental health needs of a person shall be based upon the reasonable cause to believe that a person, who appears to be mentally ill, is conducting themselves in a manner which is likely to result in a serious harm to themselves or others.²⁰
- B. Members involved in use of force incidents as described below shall notify their supervisor as soon as practicable and shall complete a departmental use of force report:

1. Use of force that results in a physical injury, serious bodily injury, or death.
2. Use of force incidents that a reasonable person would believe is likely to cause an injury.
3. Incidents that result in a complaint of pain from the suspect except complaints of minor discomfort from compliant handcuffing.
4. Threatens the use of, points or discharges a firearm at or in the direction of another person.²¹
5. Uses a chokehold or similar restraint that applies pressure to the throat or windpipe of a person in a manner that may hinder breathing or reduce intake of air.
6. Displays and threatens the use of or deploys a chemical agent, including, but not limited to, oleoresin capsicum, pepper spray or tear gas;
7. Uses or threatens the use of an impact weapon, including, but not limited to, a baton or billy;

(Executive Law 837-T Use of Force Reporting)

- C. A standardized use of force form should be used to document any reportable use of force incident.²²
- D. Officers should document any requests for necessary medical or mental health treatment as well as efforts of police to arrange for such treatment.
- E. A separate Use of Force Form is to be completed for each officer that actually uses force.

X. Procedures for Investigating Use of Force Incidents

- A. Whenever practical, a supervisor should respond to the scene to commence a preliminary use of physical force review, and/or investigation if applicable.
- B. The supervisor shall ensure the completion of a use of force report by all officers engaging in a reportable use of force incident and, to the extent practical, make a record of all members present.
- C. Detailed photographs should be taken which sufficiently document any injuries, lack of injuries under certain circumstances, and/or complaints of injury/pain, from any involved person(s); i.e. defendants, detainees, officers, involved third parties, etc.
- D. If a Skaneateles Police supervisor delivers the use of force and no other supervisor is available to investigate the incident, then a request should be made to the Onondaga County Sheriff or the New York State Police requesting one of their on-duty supervisors respond to the scene and document the incident in accordance with their agency procedure.
- E. The Chief of Police shall receive and review every Use of Physical Force Report that is filed and ensure a thorough investigation is completed, when necessary.
- F. Excessive, unreasonable and/or unnecessary use of physical force may be cause for disciplinary action and/or criminal prosecution.²³
- G. Ensure all reporting requirements to DCJS regarding the use of force are completed timely as defined by current legislation and the criteria above. Reporting shall be completed through the Use of Force Reporting Interface at eJustice New York Integrated Justice Portal (IJ Portal). All portions of the online form must be completed and submitted to DCJS as required by law.

XI. Training

- A. All officers should receive training and demonstrate their understanding on the proper application of force.
- B. Training topics will include use of force, conflict prevention, conflict resolution and negotiation, and de-escalation techniques and strategies, including, but not limited to, interacting with persons presenting in an agitated condition as well as duty to intervene and prohibited conduct.²⁴

- C. This policy is not intended to be a substitute for proper training in the use of force. Comprehensive training is the key to the real-world application of the concepts discussed within this policy.

Footnotes:

- ¹ Force which is objectively reasonable is insulated from criminal liability through Article 35 of the NYS Penal Law and civil liability by the 4th Amendment standard of objective reasonableness.
