Good Morning Andrew!

I am forwarding your email to the Village of Skaneateles. Cliff Park is located in the Village and they would have the regulations.

Good Luck with your project!

Subject: Public policy school project

Hello, this is Andrew Falkenberg from Skaneateles High School. I am working on a school project for my Participation in Government class, and I was wondering how the process would look if I were to try to implement putting in public kayaks and paddle boards in Cliff Park and other public water access in the village. My idea is to get kayaks/paddle boards that people around Skaneateles can use to get on the lake, so people that don't have the facilities to enjoy the water will have a way to take advantage of what their town has to offer. This will increase the community's effort to preserve the lake, as more people will see the benefits of it. I know that this may have flaws and was looking for your feedback. If there is someone better to contact please let me know. Thank you for your time.
