Re: 2023 Skaneateles Lake and Watershed Annual Report XLIX

Dear Commissioner Bassett,

This 2023 Skaneateles Lake and Watershed Annual Report was prepared by the City of Syracuse Department of Water. The Annual Report illustrates and discusses various programs performed by the City according to 10 NYCRR Part 5 and 10 NYCRR Part 131. Discussed within the report are the City's filtration avoidance status, land use and demography within the watershed, and a summary of the City's water quality monitoring and watershed inspection programs.

The 2023 sampling, inspection and survey programs demonstrate the continued excellent quality of Skaneateles Lake water and watershed environment. This Department continues its efforts to maintain the quality of this valuable resource.

Sincerely,

Rich Abbott, Watershed Quality Coordinator

Department Of Water
Skaneateles Lake
